Business Men's Club, and Mrs. B. B. Munford.

The idea, as put forward by those interested in the establishment of a free library, is to purchase Jeter Memorial Hall as the nucleus. This hall is said by Mr. Meredith to be admirably suited for the purpose, and could be easily added on to if it were found necessary to increase the size of the building. Branches would be established in the eastern and western and middle sections of the city, so that readers would not be put to the expense and trouble of traveling from far sections of the city to the library building. It has been suggested that druggists in various parts of the town would be glad to handle books of the library in their districts.

The plan to give free dental examination and treatment to the public school children was fostered and put forward by Dr. W. Henry Street, and is being strongly supported by the Federation of Mothers' Clubs. It provides for an appropriation of \$3,000, part of which is to be used in fitting up offices and the other for salaries. Mrs. Burrows, president of the Federation of Mothers' Clubs.
